

# USING GREY

SHADING TO ADD

# IMPACT

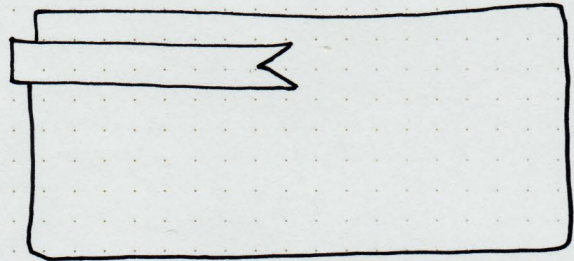

to bullet journals & doodle notes

by [lindsaybraman.com](http://lindsaybraman.com)

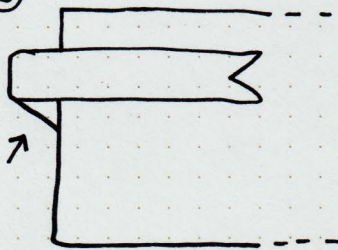

① draw banner:

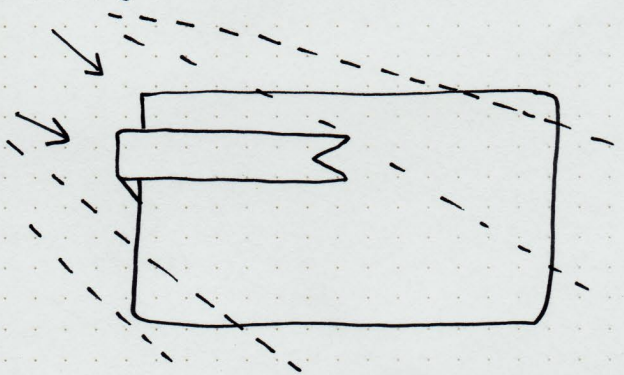

② add box:

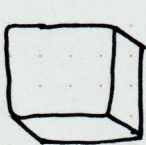

③ add banner fold

④ Imagine light source

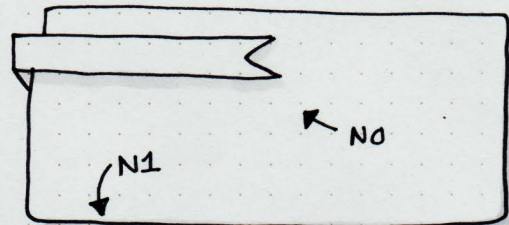

⑤ Light & Shadows works like perspective.

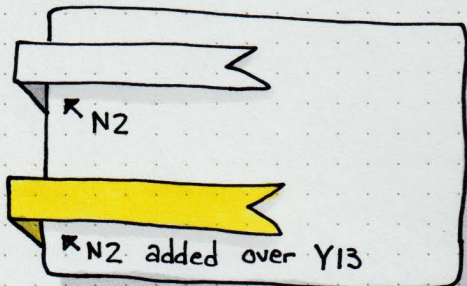

only instead of dimension & lines, use shade

⑥ Use a light grey for faint shadows. I use copic sketch marker N0 or N1

⑦ Use a darker grey for deep shadows, like banner folds. I use N2 copic.

⑧ You can use a copic colorless blender to create a more subtle effect:

N1 shading  
no blending
