

Symptoms illuminate a personality structures

Conduct Disorders are expressing
AFFECT
INTERPERSONALLY

CONDUCT DISORDERS manifest in prob. SELF CONTROL in

EMOTIONS & BEHAVIORS

BUT what if you DON'T HAVE a self?

Conduct disorders violate the rights of others. Can't be blamed on self control if pt has un/underdeveloped S.E.L.F

Adolescence is not limited to age, but to mental configuration.

LATENCY is 'downtime' before puberty. NOT OCCURRING currently by sexualized culture. Child will defensively.

bereavement & addictions also

TRAUMA DERAILS THIS

children forced to accommodate will eventually manifest behaviorally.

be willing to do the work. & this work will make you feel like an ass.

NOTE: true for good THERAPIST also

KLEPTOMANIA:

"I have been stolen from & now I steal"

PYROMANIA:

"I am alerting that something is ON FIRE"
• Often starts w/ burning parents' bed.
• No desire to harm, deep desire to extinguish internal inferno

ADOLESCENCE

- 1 Desperate to differentiate btwn family & group
- 2 Urgent desire to change & form couples.
- 3 explosion/intrusion into latency

QUALITIES of Parents determine child's self, self esteem, & forward motion.

PARENTS NEED:

1. HONESTY & working w/ self well
2. COPE W/ MESS & tolerate own shame
3. CAN SAY THIS IS ME
4. TRIMMED TO REALITY
